Kakkanad Ernakulam

Education

Master Of Computer Application

Sastra University

CGPA – 9.1

2022 - 2024

Bachelor of Computer Science

Kannur University

CGPA – 8.2

2017 – 2021

Awards and Honors

Received the ON THE SPOT Award for 5 times from TCS. Recognized for exceptional work performance and significant contributions to project success.

Employee of the Month: Awarded by TCS for demonstrating leadership, initiative, and exceeding performance targets.

About Me

Results-driven **Java Spring Boot Developer** with 4+ years of experience in designing, developing, and deploying scalable web applications and microservices. Proficient in Spring Boot, Hibernate, RESTful APIs, and cloud technologies. Strong expertise in agile methodologies, DevOps, and CI/CD pipelines. Passionate about writing clean, efficient, and well-documented code. Onsite experience at Riyadh, Saudi Arabia during the project major release and Onsite experience include the knowledge related to release structure of mass domain include external services and developed strong client interactions.

Skills

- Java, Java 8+, SQL
- Spring Boot, Spring Batch Spring MVC, Hibernate, JPA, Junit, Mockito
- Microservices, RESTful APIs, JSON, XML, HTML, CSS
- JMS (Java Message Service) for messaging and asynchronous communication
- MySQL, PostgreSQL
- Jenkins, Git
- Apigee (API design, security policies, traffic management, analytics, developer portal management)
- IntelliJ IDEA, Postman, Maven, ALM, GitHub, GitLab
- Agile (Scrum), Test-Driven Development (TDD), CI/CD

Work Experience

Java Spring Boot Developer

TCS(Tata Consultancy Services) | Aug 2021– Present

- Developed and maintained microservices architecture using Spring Boot to enhance application scalability and performance.
- Designed and implemented RESTful APIs for seamless integration between frontend and backend.
- Optimized SQL database queries, improving application performance
- Deployed applications on Server in Dev Environments
- Implemented unit and integration tests using JUnit and Mockito, improving code coverage to 85%.
- Designed and managed API gateways in Apigee, implementing traffic control, security policies, and analytics.
- Collaborated with cross-functional teams in Agile Scrum environment, delivering projects on time.
- 1 Year Onsite Experience(Saudi Arabia, Riyadh)
- Moved onsite (Saudi Arabia, Riyadh) multiple times and developed strong client interactions to gather requirements and provide technical solutions.
